Zip Password + PPD (Youtube + Torrent Method)

You can use this with some torrent sites also

First

Make Zip File From File (crack,keygen) and add Password

Now in folder where is Zip File create [Password]-READ.txt

In [Password]-READ.txt – Add link from your content locker or link locker some description about zip file, instructions.

When they complete survey your link locker will redirect them to some blog where is your zip password so they can unlock zip file.

Now Make Zip File From

FirstZipFile.zip + [Password]-READ.txt

And zip them without password

Now upload new ZipFile to Mediafire or Other upload site

Now use that mediafire link in your videos, blogs....

How to find a profitable niche

First look for upcoming games for xbox 360,ps3, pc

Check Popular Facebook games

Go to Youtube search

Search for:

“Game Name” + Crack

“Game Name” + hack

“Game Name” + download

“Game Name” + Key

“Some Niche you find”

And select – Videos from This Day

You see if competition make lot views in one day. That is good niche.

Also you can:

Go To: vagex, u2bviews or whatever view exchange sites and see what videos come up, lots of them will use PPD
